

OneLook Viewer • Link Feature

The OneLook viewer provides a consistent end-user experience across all RVI systems. RVI OneLook supports viewing, scanning, workflow, maintenance, interfacing and Screen Scrape.

With the OneLook viewer, it's easy to link a document from one image system to another. The "L" indicates that this document is linked to other documents in a different image system.

The screenshot shows the OneLook viewer interface with a table of documents. The table has the following columns: Fl..., CASE #, FILE DATE, PLAINTIFF, DEFEND..., CASE TYPE, COURT/J..., DOCUME..., TYPE, CREATE..., and PAGES. The data rows are:
