

# Reduce AR Days Now with RVI

Can a **proof of delivery signature** be electronically captured, transmitted to your home office with a **rendition billing** generated and emailed/faxed to your customer **before** the driver leaves the parking lot? With RVI you can!

Your driver selects the document to be signed.

Your customer signs the iPad

(Supported devices: iPad, iPhone or iPod Touch)

Customer's AP department receives the invoice and supporting documents

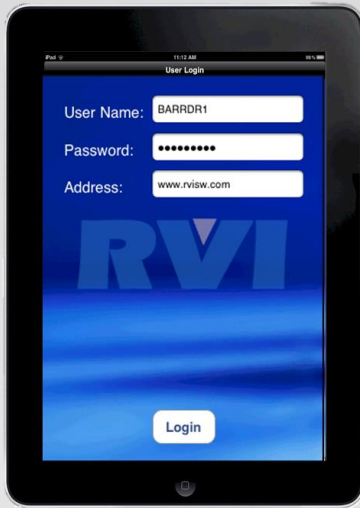

**WITHIN SECONDS, NOT DAYS!**

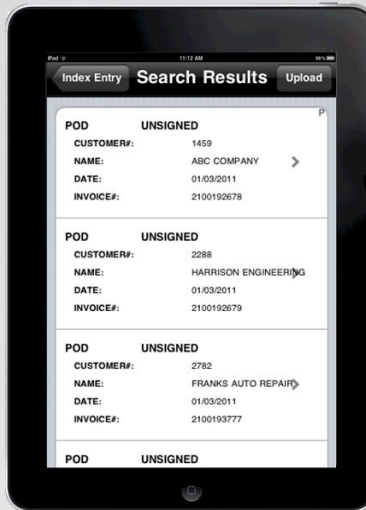

## RVI Mobile Signature Capture System

# Can Make It Happen **Now!**

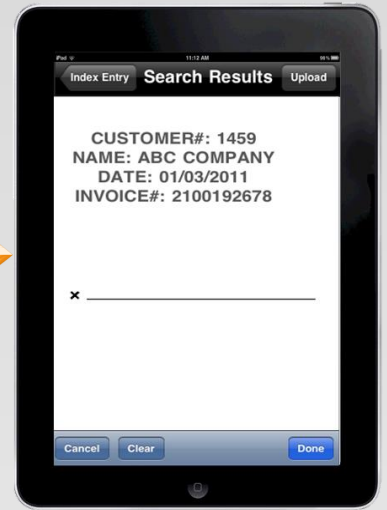

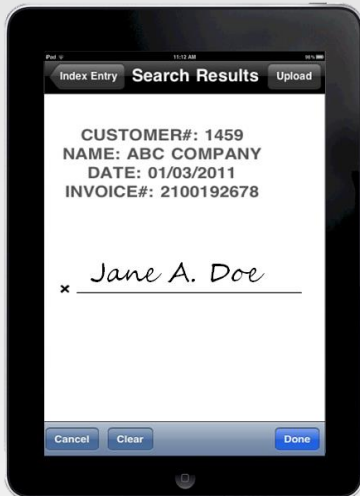

Driver signs onto system.

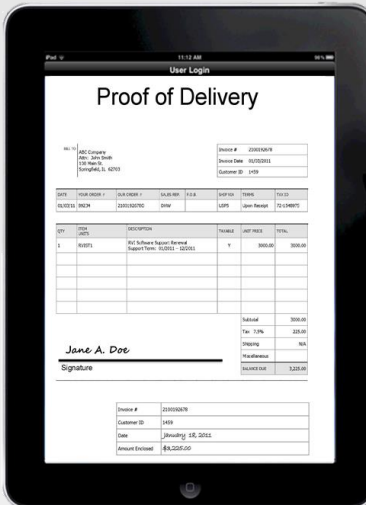

Driver gets list of deliveries needing signatures.

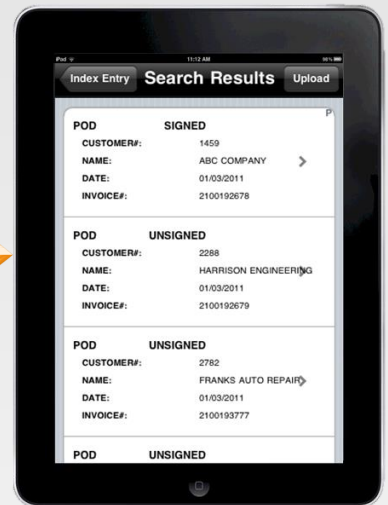

Driver selects document to be signed.

Customer signs pad.  
Accepted signature is sent and merged with document.

Signed POD and invoice are emailed to customer AP.

An updated list is displayed for driver.

**All billing documents may be emailed or faxed automatically within seconds to customer!**

**\*FREE to existing RVI Complete customers version 8.0 or greater.**
